## SEEDLINGS OF ALEXANDERI 'WESTONBIRT' FCC. RHS.

Undoubtedly the finest stud cymbidium today. You have only to look at the awards given to its progeny to realize that it completely dominates the cymbidium world. Each year, at shows, its supremacy is challenged but has not been met. To its progeny it imparts vigor of growth; substance, size and texture in their flowers. Enjoy the BEST, buy ALEXANDERI 'WESTONBIRT' HYBRIDS.

### COLOR EXPECTANCY—GREEN

#### ALEXANDERI 'WESTONBIRT' X ADARISSA 'PERIDOT'

The Adarissa used here has long, arching sprays of well shaped flowers of heavy texture in a fine clear green. Crossed with Alexanderi 'Westonbirt' should produce well shaped flowers in various tones of green Size 4" to 6".

### COLOR EXPECTANCY—GREEN AND LIGHT YELLOWS

#### ALMERALDA (Esmeralda 'Dorothy' X Alexanderi 'Westonbirt').

Esmeralda 'Dorothy' is a green color of fairly large shape. Gives light yellow, some greens and some whites. Very nice flowers. Sizes 6" to 8"; 8" to 12".

#### CALIFORNIA (Alexanderi 'Westonbirt' X Blue Smoke 'Beverly Glen' C Bronze).

The Blue Smoke used here is undoubtedly one of the finest greens seen to date and is a Bronze Medal winner. It has a fine lip and is a heavy bloomer. Will produce light to medium greens and yellows. Sizes 6" to 8", 8" to 12".

#### COLENE TRITZ X ALEXANDERI 'WESTONBIRT'

The pod parent was one of the finest of the Armacost & Royston production of the Rio Rita X Plover 'Orient' cross in 1951. It is a very fine green with dark red lip. We expect flowers of top commercial quality in yellow and light greens. Sizes 6" to 8", 8" to 12".

#### GWEN SHERMAN (Miretta 'Glendessary' X Alexanderi 'Westobirt')

This Miretta won best seedling in the show in Santa Barbara in 1950 and later received a Bronze Medal from the Cymbidium Society, Inc. that year. It is a beautiful large clear green with a crimson lip. Colors are light greens, yellows and possibly a few whites. Sizes 6" to 8", 8" to 12".

#### JADE (Pearl 'Mastiff' X Alexanderi 'Westonbirt')

Another proven good cross and a strong grower. Clear pastel colors. Yellows, light greens and some whites. Sizes 6" to 8"; 8" to 12".

#### OREAD X ALEXANDERI 'WESTONBIRT'

Oread is a very fine green similar to a good Claudona. It usually has twenty or more flowers nicely spaced on the spike. With Alexanderi 'Westonbirt' the cross should produce good shaped flowers in light green, some yellow and a few white or light creams. Sizes 4" to 6"; 6" to 8".

### COLOR EXPECTANCY—YELLOW, CREAMS

#### ALEXANDERI 'WESTONBIRT' X SUSSEX 'LAELIA SASSO'

The pollen parent, Sussex 'Laelia Sasso', won an Award of Distinction in Australia in 1947. It produces large flowers of excellent shape that are yellow heavily overlaid with red giving a rich, coppery tone. We expect yellows, creams and some whites. Size 4" to 6".

#### GRACE MITCHELL (Alexanderi 'Westonbirt' X Apollo 'Exbury' FCC. RHS.).

This cross has proved to be a free bloomer and good grower. Flowers are well shaped and nicely spaced on the stem. Colors are yellow, yellow with pink overlay and some light pinks. Sizes 6" to 8"; 8" to 12".

#### **RADAK 'GOLD' X ALEXANDERI 'WESTONBIRT'**

This Radak is owned by Paul Weber of West Los Angeles. It has clear yellow flowers, nicely spaced on a long, arching spray. We expect deep and light yellows and some whites. Size 4" to 6".

#### **COLOR EXPECTANCY—PINK AND ROSE**

#### **ALEXANDERI 'WESTONBIRT' X LOWVILLE (Roger's Red)**

This is one of the best Lowvilles available with fine, deep color. We expect some very fine pink and rose shades from this cross. Sizes 8" to 12".

#### **GLENDORA (Doris Aurea 'Petit Noir' X Alexanderi 'Westonbirt').**

This Doris Aurea is an exceptionally good red. We confidently expect flowers of good shape in shades of pink to rose. Should prove very popular. Sizes 6" to 8".

#### **ROSEMARY UPTON (Verona 'deep red' X Alexanderi 'Westonbirt').**

We feel that this cross is one of the best that we have to offer in pink. Vigorous growth is already apparent and as in most triploids good size and uniformity of habit will result. We anticipate light and deep pinks with a few whites. Sizes 4" to 6"; 6" to 8".

#### **COLOR EXPECTANCY—WHITE**

#### **ALEXANDERI 'WESTONBIRT' X TANAGER**

Tanager is Louis Sander X Flamingo 'Nobilior', a very fine white registered in 1953 by Dr. Wm. Stirling of Cheshire, England. This cross should produce many exceptionally fine whites as well as white flushed with pink. Size 4" to 6".

#### **DICKINSON'S WHITE X ALEXANDERI 'WESTONBIRT'**

The pod parent is an outstanding pure white concolor. The flowers are medium size and of good shape. Should produce a large percentage of fine whites. The seedlings are vigorous growers, many of them growing to 8 inches in less than a year from the flask. We feel this to be our top cross in white seedlings. Sizes 4" to 6", 6" to 8".

The following crosses were made to give more intense coloring in the flowers and more flowers to the spike than is usual in 'Westonbirt' hybrids.

#### **COLOR EXPECTANCY—GREEN**

#### **BLUE SMOKE 'GREEN MEADOW' X MIRETTA 'LONG LIP'**

This cross of two fine greens is expected to produce long arching sprays of 20 to 24 flowers with dark red lip. Sizes 6" to 8"; 8" to 12".

#### **FAY WILSON X MIRETTA 'GLENDESSARY'**

This cross should give that clear apple green shade that is so much desired. There should be plenty of flowers on long arching stems. Sizes 4" to 6".

#### **COLOR EXPECTANCY—RED**

#### **DORIS AUREA X CLARISSA 'ALMYRA'**

Two very fine reds were used in this cross. We feel that this is one of the best potentials for good, dark reds. Sizes 4" to 6"; 6" to 8".

#### **THE TWO FOLLOWING CROSSES ARE PRICED AT**

6" to 8"—\$2.00 each

8" to 12"—\$3.00 each

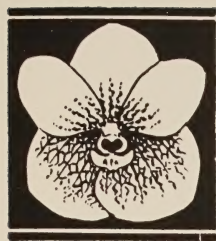

#### **COLOR EXPECTANCY—GREEN**

#### **FREDERICA X SICILY**

An attempt for a green flower of good quality for the Christmas trade. Sizes 6" to 8"; 8" to 12"

#### **FRIVOLITY 'ALBA' X BLUE SMOKE 'GREEN MEADOWS'**

This cross should produce plenty of green and yellow flowers of commercial quality. A good grower. Size 6" to 8".

 6" **MARIE LLOYD MIDKIFF (Monacensis X Manila)**. Large flowers tending toward red.  
 All **JOE MING JAY (Burgeffii X Ohuohu)**. Deep pink Sanderiana line breeding for more flowers and higher color.  
 All **ZUIDZEE (Burgeffii X Manila)**. Sanderiana line breeding toward red intensity.  
 All **BURGEFFII X CLARA S. FISHER**. Sanderiana line breeding by selection of best flowers of two crosses.  
 All **RADFISH (Admiral Radford X Clara S. Fisher)**. Large flowering type with possibility of dark reds.  
 All **RADMAN (Manila X Admiral Radford)**. Deep red pink, large, well shaped flowers.  
 All **TATZERI X MANILA**. Deep pink, heavily spotted with deeper color.  
 All **TATZERI X OHUOHU**. Sanderiana line breeding for increased flowers.

### DEEP ROSE TO RED

- All **MARY FOSTER X ELLEN NOA**. Primarily red, some yellow or bronze shading, large flower.  
 All **SAMUEL B. SHERMAN X ADMIRAL RADFORD**. Red to rust brown flowers, shape open as Sanderiana is quite a ways back in this cross.

### RED

- All **JULIA SIDERIS 'PURPURUM' X MERRILLI 'RED DEVIL'**. Small amount of Sanderiana but lots of color.

### GREEN

- All **OHUOHU X SAMUEL B. SHERMAN**. Expect some green to brown shades.  
 6" **HALELENA (Burgeffii X Trisum)**. Large, fragrant, greenish to brown.

### SOME FINE CROSSES WITHOUT SANDERIANA CHARTRUESE

- All **MEM. T. IWASAKI X DENNISONIANA**. We expect a chartreuse green flower from this cross. Excellent flowering habit of easy culture.

## VANDAS (Continued)

### CREAM AND WHITE

**6" SUAVIS (From seed).** Flowers were 2½" to 3", very fragrant. Twisted petals, spotted or barred with deep purple to red brown. Heavy flowering habit.

## AFRICAN VIOLETS

A large and very special department of the Tropical Gardens is devoted to African Violets. Our collection, one of the largest on the Pacific Coast, has been judged one of the finest. In one year, our entries won both first prizes for African Violets at the California State Fair. If you are interested in these most popular house plants, we will be happy to send you our separate catalog on African Violets.

## A PERSONAL INVITATION

Whenever you are in Santa Cruz—75 miles south of San Francisco—we would be happy to meet you personally and show you our stock. We are open every day, including Sunday, from 9 A. M. to 5 P. M. To reach the Tropical Gardens, take the Santa Cruz-Watsonville Freeway Highway No. 1 from Santa Cruz to 41st Avenue and turn right one mile.

## SHIPPING INSTRUCTIONS

Packing is free of charge for all plants listed here. Prices F. O. B. Santa Cruz, California, in U. S. Dollars. In California, add 3% state sales tax.

In order to avoid unnecessary delays and misunderstandings, please specify clearly method of shipment. Otherwise, shipment will be made via Railway Express collect. We recommend that all shipments east of the Mississippi and to foreign countries, be made by Air.

California purchasers will be pleased to learn that their plants will not be delayed for inspection on arrival in any County in California except Ventura, and Tulare Counties, which are not yet in the "Pinto Tag" program. The "Pinto Tag" on your shipment certifies that our greenhouses have been California State inspected and certified clean.
